## CAN YOU DRAW THE GARGANTIS?

See if you can draw the mythical creature using the description below:

*“A vast creature – with the head of an anglerfish and dozens of fins along its sinewy body – is ‘swimming’ in the sky over Eerie-on-Sea. It has two huge flippers, a lowslung mouth filled with tusks, and gigantic ichthyosaur eyes. The creature is wreathed in storm clouds and lightning that seem to pour off its fins.”*

**CAN YOU CRACK THE EERIE SCRIPT?**

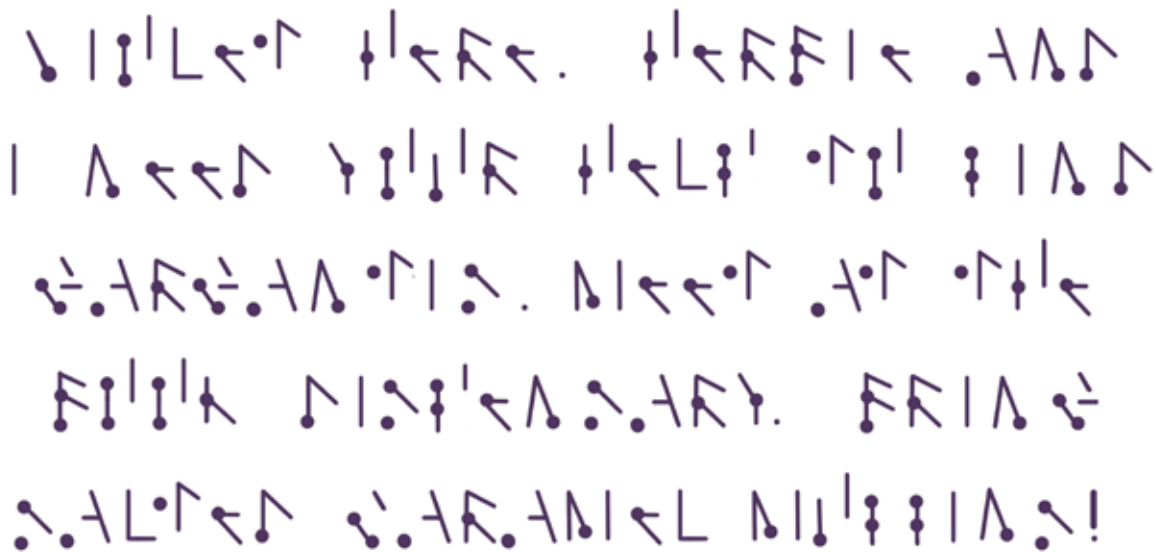

Eerie Script is an ancient, lost code. It is said that you can crack it by drawing lines from the dots in a particular way.

Using the guide below, decode the secret message.

- The lightning bolt on each compass tells you the direction in which to draw the lines, e.g. if the bolt is pointing north-east, you draw a north-easterly line from each dot to form the letters.

- Using the same compass, fill in the lines, crack the code and answer the questions below.
