

How will the trio try to catch the squirrel?
With a net? by cutting down the tree?
With a trap?!
Or do you have a funnier idea?

Think of a way of catching the squirrel and draw it above the line. On the other side of the paper draw what happens next. What will happen this time? Will they miss again?

Can you think of a plan to catch the squirrel?

a net?

cut down the tree?

a trap?!

what else?
